Personally Selected Collections of Choice Spring-Flowering Bulbs

By anticipating my requirements and placing advance contracts I am able to offer you the finest Holland-grown Tulip Bulbs at prices well under current quotations for bulbs of this quality.

Remember, that an American dollar is worth only 60¢ in Holland today as compared with last year. Yet I have been able to overcome this handicap and offer even better values.

Tulips Once Luxury of Kings

The first tulip bulbs seen in Europe were brought from Persia in the 16th century. Their showing in Europe so attracted the attention of royalty that about 1635 A.D. the prices on new varieties were bid up to fabulous heights.

A single bulb of the variety Semper Augustus sold for 3,300 florins (\$1,500). Every bulb offered in my 1934 Tulip Collections will produce a finer flower than Semper Augustus, because

finer tulips have been perfected through breeding and hybridizing. For a trifle, you can have flowers which would once have been the envy of royalty.

Because of the scarcity of money, tulips were often purchased through barter. There is an authentic record of a prosperous Dutch farmer who traded the following for a single tulip bulb:

1 Load of Grain
4 Fat Oxen
Several Fat Pigs
3 Bbls. Butter

5 Bbls. Beer
2 Hogshead of Wine
1 Bedstead with Furnishings
1 Silver Drinking Cup

1000 Lbs. Cheese

Now for less than the cost of even one "fat pig" you can purchase a gardenful of finer Tulips than this Dutch farmer ever saw—stately Darwins and Breeders, dainty Cottage Tulips and Hybrids that will produce great masses of the most brilliant color.

For centuries Holland has been famous for fine Tulip Bulbs. My bulbs are top size, imported direct from Holland. Every bulb planted this fall will produce handsome flowers next spring.

I have also included in these Fall Offerings, the finer Daffodils, Hardy Lilies and Day Lilies (*Hemerocallis*), Perennials, Poppies, Peonies, also a few exceptionally fine Roses, including the new Everblooming Climbers.

CULTURAL DIRECTIONS accompany all shipments of Bulbs and Plants.

I PREPAY THE PARCEL POST to any postoffice in the United States of America.

The Artistic Rembrandt Tulips

THESE remarkable Tulips were a sensation at my Exhibition Gardens this past season. They are handsomely striped and feathered, as shown in the illustration and are the most remarkable of all Tulips in the opinion of many flower lovers. The marking of course is different in each variety. This group is intended to cover the complete color range and the finest of each type. They baffle description. One must see them to realize their great beauty. Once seen, you will never be satisfied without a collection of them in your garden. They are shorter than the other Tulips, being from 18 to 24 inches in height, and are especially suited to the front of the border where one can enjoy their individual beauty.

Botanical Tulips

THERE are no more interesting Tulips than these Botanical Tulips from which our modern garden varieties have originated. Planted in your garden, they will become a permanent fixture and will continue to flower year after year with no care whatever. There are two distinct groups of them, one a group of real gems for the small rock garden and another group of larger, taller showy varieties for early flowers in the border.

Rock Garden Botanical Tulips

These are exquisitely sweet and dainty flowers on 6 to 8 inch stems, with flowers in proportion to the height of the stalk. Nothing will be more admired in the early rock garden, flowering in April and early May.

CHRYSANTHA -- 8 in. — Three alternating petals red outside and deep yellow inside. Three other alternating petals yellow inside and out. Pointed petals. A real gem.

\$1.00 Doz. \$7.50 per 100 \$72.50 per 1000

CLUSIANA—8 in.—Similar in size and shape to Chrysantha, but of entirely different color. Three petals are bright red, margined white on the outside and all white inside. The other three alternating petals are snow white. Like a tiny water lily in appearance.

85¢ Doz. \$6.50 per 100 \$62.50 per 1000

CORNUTA STENOPETALA—21 in.—Unusual spidery form. Very attractive. Red and yellow narrow twisted petals, the red deepening as the flower ages.

"Golden Gleam" Collection of Daffodils

Choicest Narcissi and Jonquils

Also Included

THIS is the most wonderful collection of Daffodils I have ever offered. It would be hard to select another investment that will give you so much pleasure and satisfaction and garden beauty for the money expended. This collection consists of a well-balanced mixture of all of the finest types, including The Yellow Trumpet Daffodils, Bi-Color Trumpet Daffodils with white perianths and golden yellow trumpets. The All-White Trumpet Daffodils, Barri Narcissi, Incomparabilis Narcissi, Leedsii Narcissi, Poets Narcissi, Double Narcissi, Jonquils and Jonquil Hybrids. Each bulb will bloom for you early next spring, beautifying the garden and providing pleasing bouquets of cut flowers for the house. All are hardy; when once planted, they may be left undisturbed for years. They will increase from year to year without any care. A few bulbs will soon produce armsful of flowers. This is the finest collection of the kind that it is possible to assemble. Fine for the garden and for naturalizing.

Hardy Perennials

The Perennials I am offering are large, healthy two-year plants that will bloom freely next Spring. I have personally selected these plants for size and vigor, also with a view of giving my customers the finest varieties obtainable in each group.

Every year, Perennials are growing in Popularity. They are easy to grow, requiring less care than annuals. They last for years, growing in beauty and profusion of bloom.

Plant Perennials between the shrubbery border and the lawn, also in the cutting garden. Perennials are also attractive when planted at the edge of the foundation planting.

Many Perennials are especially adapted for the rock garden.

TRILLIUM (Wake Robin)

A beautiful native woodland plant, known also as Wood Lilies or Wake Robins. Fine for a shady nook in the garden or for naturalizing in the woodland. Once planted, they establish themselves and continue to multiply year after year requiring no care. Not partial as to soil.

GRANDIFLORUM—The best of all Trilliums, producing large star-like blossoms early in the spring on 12 to 15 inch stems.

MERTENSIA VIRGINICA (Virginia Bluebells)

This is one of the most delightful of all garden flowers, either for the rockery or the border, or the wild garden. Planted anywhere it will delight you with its lovely porcelain blue flowers which grow in clusters from 12 to 18 inches high. It has an unusually long flowering season, blossoming throughout the month of May on Long Island. Try these Virginia Bluebells on my recommendation that you will be delighted with them. Plant these hardy little bulbs wherever you wish to create a naturalistic effect—in out of the way corners, along the woodland path and on grassy banks. It will make itself at home and multiply.

Hemerocallis (or Daylily)

THESE very showy garden flowers are among the easiest of culture, and most satisfactory of all perennials. They produce myriads of lily-like blossoms in various shades of yellow, ranging from a soft creamy yellow to the deepest orange. Some of them are shoulder high and others are low enough for use in the rock garden. Some of them flower during May in the latitude of New York; others flower during June, and still others through July and August. These new hybrids are a great improvement over the older types, and much easier to grow than ordinary lilies. All are extremely handsome and many are very fragrant. Prices are for extra strong flowering size plants.

If you have never grown Hemerocallis, plant a few of these varieties in your perennial border this spring. If you are the fortunate owner of a rock garden, plant H. Minor in a sunny spot. It will delight you with its lemon yellow flowers, borne in liberal profusion.

Season's Last Call

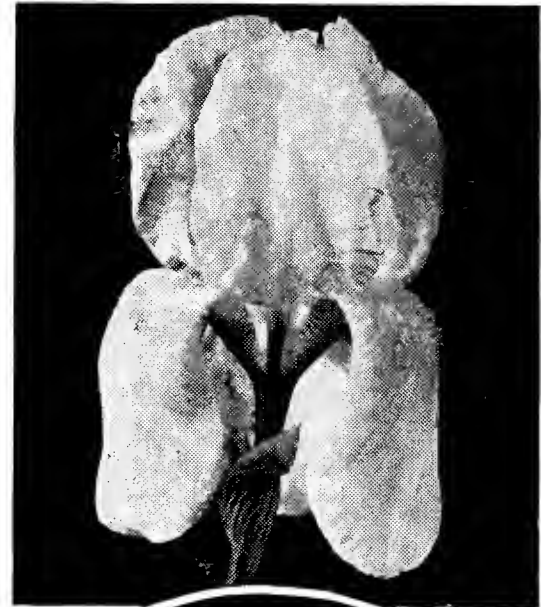

Sensational Iris Bargains From My Famous Exhibition Gardens Where Over 1,200 Varieties Are Grown

I am now engaged in enlarging my Exhibition Gardens to twice their former size. This compels me to move my entire planting of Bearded Iris and to rearrange my plantings of Japanese and Siberian Iris. The immediate transplanting of this tremendous amount of stock enables me to offer you an unparalleled opportunity to secure representative collections of the world's finest Japanese, Siberian and Tall Bearded Iris at unheard of bargain prices.

No finer, larger or freer flowering plants are grown anywhere in the world than those that will be shipped in these collections.

GOODWILL COLLECTION **25 Tall Bearded IRIS — \$2.50**

This is a remarkable Collection that will give you a representative display of the newer Iris shades and colors. Every plant is a different variety. Together these varieties will give you a brilliant galaxy of lovely and harmonious colors and blends. You could not duplicate this Collection, picking the varieties individually from my Catalog, for \$5.00. It is one of the best values I have ever offered, unlabeled.

25 Summer-Blooming JAPANESE IRIS — \$3.00

Every flower lover should have a real representative Collection of Japanese Iris. In fact, if I had to choose just one group of Iris, it would be the Japanese, because of their great size and beauty. They come at a time when other flowers are scarce in the garden.

This Collection will be planned to give you a complete color range. There will be giant singles and doubles; mottled, striped and blended effects; soft pastel colors and gorgeously brilliant tones. Some will produce flowers as large as a dinner plate. Some are now offered for the first time in a low-priced Collection, unlabeled.

25 World's Finest SIBERIAN IRIS — \$3.00

This is a very unusual Collection—the finest obtainable anywhere in the world at any price. They are prodigious bloomers and make excellent cut flowers. These Iris are of the very easiest culture. They do well anywhere but are especially fond of moist spots. They are very useful for naturalizing. In form, they differ from all other Iris and deserve a place in any first-class Iris Collection. I will include in this Collection several varieties that recently sold at \$5.00 to \$10.00 a plant. The varieties will be personally selected by me to assure full color range, unlabeled.
